

How do I provide this to my audience?

The easiest way to provide *Five Wishes* Online is with a custom link from your website. We'll provide you with a URL that will allow your audience to bypass the payment page and go straight into creating their *Five Wishes* Online account.

If you don't want to link your audience from your website, you can send your custom link out in an email, or we can provide you with an "access key" that you can send in an email or mail on a postcard. All they'll have to do is visit *Five Wishes* Online, enter your access key, and get started.

No matter how your audience gets to *Five Wishes* Online, if they get there because of you, they'll be reminded that you provided them *Five Wishes*, thanks to the custom back cover that will be included in their printed document.

A great way to help build your community contacts list and to learn who takes advantage of your *Five Wishes* Online offer is to use a sign-up or information request form on your website when providing the link.

Memorial Hospital cares about you!

And we're giving you the gift of

Five Wishes Online

Please share a little information with us and we'll get you started!
